Solving the problem!

Step 1

What is the problem?

We no longer have the school's paper waste collected for recycling free of charge. So what waste do we have, and how much do we have?

This team of enviro problem solvers under the guidance of our Enviro school facilitator, Ruairi Kelly, carried out an audit of a day's waste at Manawaru School. The team sorted waste into a range of categories, after collecting a day's waste from all of our school bins.

*We will produce nearly 1.2 tonnes of landfill in 2020! 89% of this could be diverted!
Each person at Manawaru School is producing an average of 13.7 kg of waste!*

We have waste that we need to deal to, and now we need to work out how.

Step 2 is on the way!

1 or 2 days a week doesn't seem like much but

If your child misses ...	That equates to ...	Which is ...	And over 13 years of schooling that's ...
1 day every 2 weeks	20 days per year	4 weeks per year	Nearly 1½ years
1 day per week	40 days per year	8 weeks per year	Over 2½ years
2 days per week	80 days per year	16 weeks per year	Over 5 years
3 days per week	120 days per year	24 weeks per year	Nearly 8 years

How about 10 minutes late a day? Surely that won't affect my child?

He / she is only missing just ...	That equates to ...	Which is ...	And over 13 years of Schooling that's ...
10 minutes per day	50 minutes per week	Nearly 1½ weeks per year	Nearly ½ a year
20 minutes per day	1 hr 40 mins per week	Over 2½ weeks per year	Nearly 1 year
30 minutes per day	Half a day per week	4 weeks per year	Nearly 1½ years
1 hour per day	1 day per week	8 weeks per year	Over 2½ years

EVERY DAY COUNTS

**If you want your child to be successful at school then,
YES, attendance does matter**
