Find us on 

Empowering learners for their future

PRINCIPAL'S REPORT

As we determinedly look forward to a sparkly new future, we are reflecting on the best way to support learning moving forward. Our current system was designed to support the Industrial Revolution which began in 1760 and ended in 1840. Possibly time for a few tweaks, to say the least. Of course schooling has evolved to a degree. People have made change based on a range of pressures, not always educational! Now we know so much more about how the brain functions, including the influences that impact on learning we need to work smarter!

We started by looking at our harakeke last year, trying to make it user friendly and fit for purpose. We have it nearly ready for publishing and are looking forward to seeing it in action. As part of our vision moving forward, we are planning a series of actions around Hauora– wellbeing. We are seeing input from the students, who will hopefully in turn seek input from their families, so we are all fit for purpose!

Let's hope that the upcoming break will give families a chance to enjoy time together, rather than worrying about whether they should or shouldn't send their children to school. It has been a challenging time for everyone. We are enjoying having most of the team back together and they seem to be enjoying the company of their peers. It can be a bit hard for children to be away from their classmates, so it's great to be back together. Thanks for sending your children back and we look forward to seeing them after an actual holiday!

Planning is underway to involve families with the school again. We are looking forward to seeing people reconnecting at school or for some of our newer families getting the chance to connect with the rest of the school community. So keep your eye out!

We have BOT elections coming up in September, so if there are people interested in what is involved, there are plenty of BOT members to fill you in.

In the Kaahui Ako space, we are looking at a Teacher Only Day to be held on June 7, giving families a 4 day weekend. We will be working with a neuroscientist for much of the day and are looking forward to hearing David Galbraith as well. As a Kaahui Ako, we are also looking forward to getting together again and working as a team to support the Te Aroha Learner.

So it is onwards and upwards! Each day is a day closer to our 'new normal'!

Rosemary

“Do not wait until the conditions are perfect to begin.
Beginning makes the conditions perfect.” Alan Cohen

Room Two had to improvise when the builders needed the classroom.

Mrs L and Mrs Ward told the class to make huts in the trees and on the playground. This then turned into making hammocks in the trees and on the playground.

Room Two have also been learning about creation stories for our te reo lessons with our student teacher; Mrs Ward. We re-enacted the 7 stages of how the earth was created by separating Papatūānuku and Ranginui.

7 Lawrence Avenue, Te Aroha (07) 884 8749 (07) 884 8709

Our sessions run Monday to Friday from 8.30am to 2.30pm
